

Mercedes-Benz Financial

# First Class Interior and Exterior Protection

Featuring DuPont™ Products

Extra protection. Extra peace of mind.

Spills. Stains. Splatters. They could happen to the interior, and even the exterior, of your vehicle. That's why Mercedes-Benz Financial now offers a new level of protection – First Class Interior and Exterior Protection – using DuPont™ products. A protective coating is applied to the fabric, leather and paint, safeguarding your vehicle against stains and marks, while helping to maintain your vehicle's overall appearance.

## Interior Protection

**Fabric Protector** – As vehicles are being used more often, upholstery fabric and carpets are exposed to more spills, splatters and everyday mishaps. DuPont™ Fabric Protector will help provide protection against staining, high temperatures and discoloration caused by all types of spills including food, coffee, soda, and other beverages.

**Leather Protector** – While leather is known for its durability, even these surfaces are not immune to wear and tear. DuPont™ Leather Protector creates a barrier to help protect against high temperatures, stains, premature aging, cracking and fading.

## Exterior Protection

**Paint Protector** – Vehicles' paint finishes are challenged every day to resist oxidation, fading and loss of gloss. To help maintain your vehicle's appearance and shine, DuPont™ Paint Protector helps protect your paint finish in high temperatures and provides additional protection against items such as insect damage, acid rain and road salt.

More coverage. More protection.

In addition to fabric, leather, and paint protection, you'll get the following benefits:

- Five-year, new-vehicle product guarantee
- No need for re-application
- Three-year, pre-owned vehicle product guarantee
- Transferable to a subsequent owner

Keep your Mercedes-Benz looking newer, longer. Ask your Mercedes-Benz dealer about First Class Interior and Exterior Protection today.
